#### Performance Observation/Evaluation Strategies

**Interactive • Interrelated • Interdependent System**

Foundation for: Classroom and School Life Lab • Counseling Program School House • ALL Growth and Prevention Formulas
A comprehensive, developmental guidance system for classrooms and schools with the necessary components for success. Each component is implemented slowly and simultaneously with a 3- to 5-year plan until all system components are in place.

The interactive, interrelated, and interdependent movement between system components.
Overview of a Guidance System

• Behavior Management - Extrinsic - what we say and do
• Self-Talk & Self-Pictures - Intrinsic - what we say and believe with what we think and feel
• Curriculum - Student Skills
• Implementation - Staff Skills
• Family Involvement - Family Skills
• Observation/Evaluation
System Components Implemented

- Congruent
- Systemic - identify all components of the System or whole and understand the relationship between components
- Slowly and simultaneously
- 3-5 year process
- The Whole is larger than the sum of the parts
The whole is equal to more than the sum of its parts.

—Tommie R. Radd, Ph.D.
